

# SYMBIOSES

BUSINESS BRIEF

REVOLUTIONIZE THE INCORPORATION OF ADVANCED TECHNOLOGIES INTO A SIMPLE TO USE PLATFORM TO CONNECT, BENEFIT AND EMPOWER ANYONE WITH A SMART DEVICE.

We are focused on providing a simple-to-use application that can seamlessly employ and monetize the available resources of any device with a processor in a safe and secure environment. There are millions of underutilized devices that can offer their computing and storage resources to the network, and we have the technology to enable this connection. Symbioses is unique because it targets not only the technically proficient, but also the general public: anyone who has a device and wants to profit from the non-utilized processing or storage capacity will be able to do so using the Symbioses' application.

## THE PROBLEM

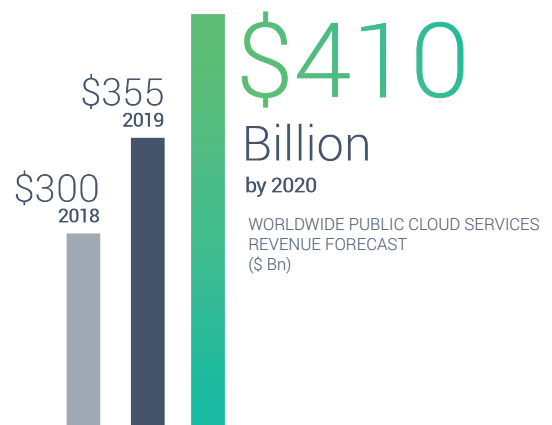

Centralized cloud-based solutions are leveraging their dominate position to control greater amounts of computing capacity and storage with minimal price competition. The continuous digitization of our daily lives and digitalization of business is creating greater demand for computing and storage capacity. Every day, we create 2.5 quintillion bytes of data . More than 90 percent of the data in the world today has been created in the last two years alone. The introduction and proliferation of new technologies and devices will accelerate the data growth rate into the foreseeable future.

## MARKET SIZE

Gartner predicts more cloud growth in the infrastructure computing service space as adoption becomes increasingly mainstream. Additional growth is being created from the migration of infrastructure to the cloud and overall demand acceleration due to intensive computing workloads from video processing, 3D graphic generation, robotics, artificial intelligence / machine learning, Big Data analytics and the Internet of Things generated in the enterprise, academic and start-up spaces.

## THE SOLUTION

Symbioses will be the largest peer-to-peer network to monetize computing and storage resources throughout the world, connecting non-interoperable networks. Utilizing its own protocol Symbioses will overcome current scalability issues of blockchains to directly challenge the entrenched oligopoly dominating cloud computing and cloud storage.

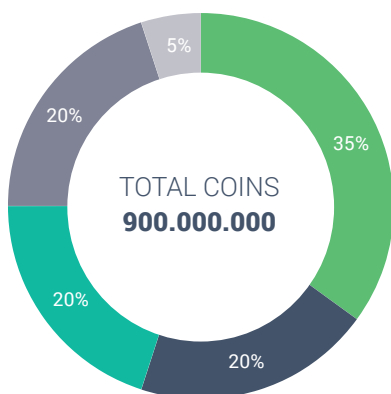

## POINTS OF DIFFERENTIATION OF SYMBIOSES

- SYMIO is a new protocol that unites decentralized computing and storage
- Decentralized computing software MVP successfully tested
- Seamless integration of various platforms
- Optimizes decentralized computing with decentralized storage within our network
- Ease of use expands the target market to include the underserved general public.

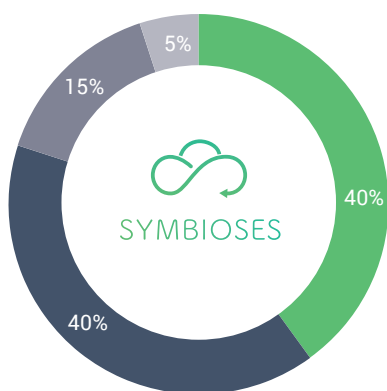

## ICO INFORMATION

Details of the Pre-Sale and Main Sale of the ICO will be announced on our website [www.symbioses.io](http://www.symbioses.io). The Whitelist for the pre-sale will be available on the same website along with KYC documentation. **Hard Cap USD \$35,000,000**

### TOKEN ALLOCATION

- Coins offered to the public
- Community reserve
- Founders and team
- Company reserve
- Bounty and Advisors

### USE OF FUNDS

- Research & development
- Marketing & advertisement
- Selling, general & administrative
- Legal, accounting & compliance

## PARTNERS

OCHSNER & ASSOCIÉS

## ADVISORS

SCOTT WITTER  
**Founder of Glownet**

CARLOS MARTÍN  
**Founder of Cryptobirds**

MICHAEL BUCKWORTH  
**Legal advisor UK**

PLEASE READ THIS DISCLAIMER SECTION CAREFULLY. IF YOU ARE IN ANY DOUBT AS TO THE ACTION YOU SHOULD TAKE, YOU SHOULD CONSULT YOUR LEGAL, FINANCIAL, TAX, OR OTHER PROFESSIONAL ADVISOR(S).
